graphed the Governor from here that he had the guns with him and wanted to turn them over to some responsible authority at Frankfort. At the Phoenix Hotel Major R. D. Williams gave the officers of the militia an elegant supper, which they very heartily enjoyed after

John Trumbo, indicted for shooting and wounding Howard Logan, came in this morning and surrendered to the Sheriff. He was placed in jail to await trial. Morse Little is ready for trial for the murder of a man named Morrow. These cases will soon be disposed of, when the most eventful session

There is but one theory as to why this barbarism exists on Hermit Island, that is that the negroes, during the time of slavery, sought this as a place of refuge from their masters. That they had had no means of reaching the island at their first advent is almost certain, since they would in such a case provide themselves with fire and means to obtain food. But how did they get there? Certainly not as a question of manners. Certainly not as we did, for the fall of the island was not made until after the tunnel only a few years ago, while these negroes have been on the island not less than twenty-two years. No effort was ever made by white men to reach the place. On account of its rocky nature, the fall of the island was not supposed to be tillable.

J. E. Smalley, of Campton, has purchased the feather renovator at this place and will continue the business, commencing operations next Monday. Persons wishing beds renovated, are invited to come in and inspect the work. 263.

I will begin operating the feather renovator at Hazel Green next Monday. Feathers delivered on that day can be taken home on the next.

262 J. E. SMALLEY.

convulsive, violent action of the bowels. On the contrary, it invigorates those organs, the stomach and the entire system. As a means of curing and preventing malarial fevers, no medicines can compare with it, and it remedies nervous debility, rheumatism, kidney and bladder inactivity, and other inorganic ailments.

Have your feathers renovated and insure yourself and family against disease.

## What One Man Has Contributed to the Science of Timber Culture.

cultivated as corn is, the hand-hoe being rarely employed. The best work is done by an ordinary two-horse walk-behind cultivator. The young trees should be treated as corn, and the corn should be raised in rows as wide as the corn. Weeds are as injurious to the young trees as to corn, and should be first as the last. If weeds spring up near a young tree they should be pulled out by hand. The number of years the cultivation required will depend on the varieties of trees planted. Some may be ready for fruit in the first year. The cultivation in either case must continue until the trees are large enough to shade the ground, and thus prevent the growth of weeds. Experience has taught Mr. Douglas that it is best to plant different kinds of trees by the side of each other, and to grow them in rows, or in groups, or in lines, as he directs. He says it requires twice if not four times the amount of work to remove the native trees from an acre of land as is needed to plant an acre, and to work the soil till the trees will completely shade the soil. It is better to remove the native trees than to try to change them to get land to cultivate.

**The Most Reliable Way of Achieving Success in Business**

The history of the successful business men of this country is so pregnant with tributes to advertising that the first attempt to give a collection of biographical sketches of those who have risen from fame and obscurity to rank and fortune made by a firm devoted entirely to the profession of securing advertisements and having the same published, is a singular fact that this series of biographies embrace the names of nearly all the prominent men who have amassed wealth as merchants and financiers, and whose professional and business life is so abundantly evidenced as to present with each sketch that no small part of their good fortune was owing to their shrewdness in attracting public attention to their business, through the medium of the press. Such striking instances of success as are rehearsed in these biographies, and which do not otherwise than carry conviction to all minds ready to receive sensible impressions; and therefore we are afforded the spectacle of all classes eagerly striving to gain the greatest possible publicity, not always, however, at the greatest possible cost. In the case of the newly-fledged advertiser often devoted his attention to circumventing the business office of a newspaper. But the regular, legitimate and persistent advertiser learns and appreciates the value of such publicity, and willingly pays the cost in estimated journal influence and character.—*Boston Advertiser.*

### What a St. Louis Merchant Saw in a Scientific Counting Room.

—Stranger—"So that is your chief cook, eh? Strange! He looks healthy." Hotel Man—"Healthy! He hasn't lost a day on account of sickness for years." "Remarkable, very remarkable!" "Some people have an idea that cooks are big eaters, but this isn't so. That man eats scarcely any thing. Why, sir, about one-half the time he takes nothing but crackers and milk." "Ah! I see. He doesn't cook the crackers himself."—*Omaha World.*

—Oscar Wilde has become editor of the *Lancet* at London.

—That which many writers are willing to believe is their strength is the truth their weakness. That writer in English is always weak who seeks to express in far-reaching and high-sounding Latinisms thoughts that can be expressed equally well (and therefore better) expressed in the simpler Saxon. These are the writers who go fishing with the tin hook of intellectual childhoof in the pool of the practically obsolete and sonorous words, when the idea they wish to convey were much more easily understood if clothed in simple phrases.

—Detroit Free Press.

—An exchange says: "Does etiquette demand a vest on a hot day? If it does, it can have ours.—*Norfolk*  
*town Herald*

—Susan Canvasser—"As the present is the time when all prudent householders furnish up their belongings, and I have here a carpet-cleaner, neat and improved patent, has back-acting cogs—" Housewife—"Go 'long with you. I have a carpet-cleaner that beats any two of yours." "Impossible, madam! Can I ever see it?" "Well, I dunno. He's out in the back yard now, and he's apt to get mad if strangers look at him."—*Philadelphia Call.*

## CONVINCING TESTIMONY

ABOUT one-seventh of the grain produce of Great Britain is appropriated in the manufacture of strong drink.

## A Habit That Can Not Be Hidden—Why ky Drinking Not a Sign of Brilliance

In addition to the knowledge that his presence among refined people is not desirable for the reasons named, the young man who "takes a drink when he feels like it," should be made to understand that he is regarded not with the toleration and maudlin pity that once followed such "good fellows," but with a contempt that has few modifications. The drinking of whisky has ceased to be accepted as a sign of brilliancy, but is held, rather, to be a mark of mental weakness; the drunkard is no longer an erratic genius, but a disgusting creature, even in the early stages of his course, and more distinctly he realizes this truth the better. —*Indianapolis Journal*.

At a recent meeting of the Middlesex South (Congregational) Conference a resolution was adopted declaring it to be the duty of every church of Christ not only to insist rigidly upon the practice of total abstinence of its members, but also to make special effort for the suppression of intemperance in the community at large, and do this as a part of the regular church work.

# THE HERALD

Has a large circulation in the mountains of Eastern Kentucky than any paper in the State, and merchants and others wishing to secure the trade of Eastern Kentucky, will find it the most advertising medium.

**Advertising Rates.**  
 25¢ Transient advertisements, 25 cents an inch for each subsequent insertion; 25 cents an inch for each subsequent insertion.

**STANDARD ADVERTISEMENTS.**  
 1 inch, 1 year, \$5.00; 4 inches, 1 year, \$15.00; 2 inches, 1 year, \$9.00; 3 inches, 1 year, \$12.00; 6 inches, 1 year, \$20.00.  
 Special rates on larger advertisements; local notices 5c a line, with 3 per cent. off for long time.

**U.S. Marriage and death notices free;** tributes of respect and obituaries 5 cents a line.

**Announcements of candidates for State or District offices, \$10;** County offices, \$5; calls on persons to become candidates and their answers, 5 cents a line. Payable in advance.

**No name will be entered upon the Subscription Book until paid for,** and all subscriptions are stopped at expiration of time paid for, notice of which will be indicated by a cross mark (X) on the margin in front of your name. A prompt renewal will insure its continuance.

SPENCER COOPER.

**GARRISON, HE SELLS CHEAP**  
 HARDWARE, QUEENSWARE, STOVES, TINWARE, CUTLERY, MASONIC TEMPLE, 1001 MT. STERLING, KY.

**CURRENT TOWN AND COUNTY NEWS.**

Last Monday was regular county court day at Campton.

Hon. W. O. Mize and Postmaster Evans attended Quarterly Court at Campton on Tuesday.

See our liberal proposition to all who will take THE HERALD and the New York World.

Albert Fitts, who has been with us for sometime looking after his lumber interests here, left for Lexington on Monday last.

Rev. W. M. Manker, of Maytown, preached at the Methodist church in this place last Sunday, and gave the people a sermon full of food for thought.

Fred Day is building an addition to his residence in this place which will greatly improve its appearance and add materially to its comfort and convenience.

Mr. Snullay, who left Campton on Sunday last, tells us the brick work on the court house, under the supervision of Jim Hall, the boss bricklayer of Eastern Kentucky, is going up rapidly.

Rev. E. P. Mickel, who has been visiting the Presbyterian churches of this section preached at this place Friday, Saturday and Sunday, and drew large audiences. He is quite a favorite with the whole people of this section, and always has good congregations made up of christians of all denominations. He left for his home at Grayson, Carter county, on Monday.

The photographic artist, Mr. Perry, now located here and for a short time only, is one of the best we ever saw. He took THE HERALD man's photo last week, and all who have seen it pronounce it the finest picture they ever looked upon. Of course, the subject is a good one, but Mr. Perry can make a life like picture of all who sit for one, and to those who would "secure the best picture they can see," we say go and have him take your picture. He can not be beaten.

Mrs. John Ward, of the Cox Mill neighborhood, brought us a mess of sweet potatoes last Monday which excel anything of the kind we have ever seen this year. She did not know the variety, but thought they were of the Southern Queen family. They were nearly round in shape and of fine flavor. Mrs. Ward is an excellent lady, and belongs to a family we have always held in high esteem, her father, Uncle Billy Cox 83, and her uncle, Dr. Ben Cox, of Mount Sterling, being among those we think especially well of. Her little lord, John Ward, is a good friend also, but anyone acquainted with him will not accuse him of raising potatoes. He would rather prospect for silver and gold.

John Pieratt says that while in Louisville, he and Geo. Rice visited a fencing school. Rice looked at the fencing master's maneuvers for a while and then asked him if they could engage in a fencing bout, the f. m. replied that they could. Rice sized one of the fobs, and in a little while demonstrated that he had not forgotten the lessons taught him in early childhood in his native France, and that through the practice he gained in the Franco-Prussian war he was an expert. He parried every blow of the fencing master and at one time sent his adversary's fob high in air, spinning like a top as it went. The f. m. offered him a hundred dollars a month to teach the fencing school, but Rice said he preferred to come home and live with George and build picket fence.

Imperfect digestion and assimilation produce disordered conditions of the system which grow and are confirmed by neglect. Dr. J. H. McLean's Strengthening Cordial and Bilious Purifier by its tonic properties, cures indigestion and gives tone to the stomach. \$1.00 per bottle. Sold by G. E. Swango, Hazel Green.

The Hazel ball game came up last Saturday morning to wipe up the earth with the Hazel Green nine in a short time, and our boys were confident they could do so, for the fact that the Hazel had been practicing since last fall, and besides are all powerful and little young men—physical athletes. Hazel Greens, therefore, went to bat with fear and trembling, feeling akin to the "Bunch of Grapes"—nor was this feeling improved in the first few innings. On the contrary, several of our boys remarked, "They'll down us." However, they made up their minds to give the visiting nine a warm reception, and if defeated, to demonstrate that it was not for want of interest. As the sequel will show, this determination was what saved them, for after a long and hotly contested game, the home nine were declared the winners. There was some good playing on both sides, and to mention the special play of any man on either side would be doing an injustice to others, as all did well under the circumstances. Our boys are very much elated at their success, and think they will again be able to defeat the Hazel on the return game, which will be played about the middle of October at Ezel, but they should not be too sanguine. Everything passed off quietly, though the visitors had a little sore at their defeat by a nine which has only been practicing about three months. If so, they accepted the situation good-naturedly, and were otherwise apparently well pleased with their visit. We hope they will play many games together, and that each nine may develop some \$3,000 players. THE HERALD will before long put up a prize to be contended for, notice of which will be given in these columns. Below is the score of the game and the players' names:

**HAZEL GREENS.**  
 John Davis, capt.; T. E. Johnson, capt.; W. T. Swango, Frank T. Gibson, Rollin Kash, Charles Swango, Jimmie Swango, Ira Clark, James H. Hendley, J. H. Evans, Ellsworth Lacey, Flen Barton.  
 Innings. 1 2 3 4 5 6 7 8 9  
 EZELES. 9 8 5 12 0 5 4 4—38  
 HAZEL GREENS. 9 2 2 3 3 2 2 0—30

The game was umpired by Wm. Prater, with Judge Swango as assistant.

Last Monday morning a gentleman walked into our sanctum and inquired if we had the Owensville Outlook on our exchange list. We replied in the affirmative, and producing the last issue handed it to him. After perusing it we asked him where he was from, etc., and if he was looking out for land with a view to buying. He said no, but that he had come into this section for his health and through curiosity. Among other things he was anxious to see Big John Wilson (Logston). He said he saw him and did not think he had ever met a more perfect picture of physical manhood. He went on to say that he met "a little Miss Kesh, who was one of the most charming, interesting, and intelligent creatures he ever saw." Further inquiry developed the fact that it was Miss Lulu daughter of Hon. J. M. Kash, of our town, and as she is a general favorite, we did not wonder at his ecstasy. Before going he told his name as B. F. Piersall, and his postoffice Young's Spring, Bath county, Kentucky.

Some people want the earth. It is not ours, or we would divide with them. The next thing, however, is the World. We will give them the New York World, the HAZEL GREEN HERALD and choice of the History of the United States, Guide of England, or Everybody's Guide. These books are elegantly bound, about 400 to 600 pages each and retail for \$2.00 a piece. With the two papers we will give either one of them, at the rate of one for only one dollar. Subscribe now! You will never again have an opportunity of getting so much information for so small a sum of money. Call at this office and look at the books. You can not afford to miss this opportunity.

Uncle Bill Lawson, the well-known blacksmith near Maytown, on Monday last sold W. T. Coker's lot of this place, the load of the finest bituminous coal we have ever looked upon. It has all the colors of the celebrated Peacock coal, and a block of it exposed to the sunlight shows all the colors to be seen in the most beautiful rainbow. The vein in this bank will average close to four feet and is all clean, nice coal. Mr. Lawson says he has in forty years used several kinds of coal in his trade, but that he never used anything equal to this coal, and is of opinion that it will coke equal to any coal used for that purpose.

Disease lies in ambush for the weak; a feeble constitution is ill adapted to encounter the attacks of nature and sudden changes of temperature, and the least robust are usually the easiest victims. Dr. J. H. McLean's Strengthening Cordial and Bilious Purifier will give tone and vitality and strength to your entire body. \$1.00 per bottle. Sold by G. E. Swango, Hazel Green.

Dr. F. M. Thomas of the Ezel Mill Co., reports that the first new corn was brought to his mill on September 1st, and that he ground three turns of it, which made first-class meal.

The Gibbs tract of land, which was sold at commission sale last Saturday, is now owned by A. P. Lacey, Esq., bought it for J. T. Day, of this place.

Floyd Day has returned from Cincinnati, and while there purchased a large stock of fall and winter goods, which are now arriving.

H. C. Herndon, Master Commissioner, is at Campton this week on official business.

**TO CORRESPONDENTS.**  
 We make the following Liberal Offer.  
 Recognizing the fact that a good correspondent at every available point is a desirable auxiliary to any country paper, and realizing that good ones will be especially advantageous to THE HERALD, and that said correspondents should have some remuneration as a reward for their labor in making their letters interesting, we make this proposition:

1. To the correspondent sending us the best average letter, each week for one year, we will give TEN DOLLARS IN GOLD;
2. To the correspondent sending us the second best average letter, each week for one year, we will give FIVE DOLLARS IN GOLD;
3. To the correspondent sending us the third best average letter, each week for one year, we will give TWO-AND-A-HALF DOLLARS IN GOLD;
4. To all correspondents who furnish us with an interesting and acceptable letter each week, and who are not fortunate enough to win one of the above prizes, we will give a YACHT or a HANDSOME present, as the case may warrant.

These prizes and presents will be awarded to a committee of constant and intelligent readers, and in no instance will a correspondent's name be made known to bias the judgment of the committee, but letters themselves must be the criterion of their merits.

In addition to the above we will send each accepted correspondent THE HERALD free, and give him or her 15 per cent. off on all subscriptions sent us. A commission to be deducted and balance sent us with names. The more interesting the letter, the more subscribers will be obtained, and subscriptions sent us in a neighborhood cut compact, and we give the following synopsis to govern all, reserving the right to reject anything we may think calculated to offend:

WE WANT THE NEWS:

Nothing derogatory to private character will be tolerated.  
 Stories visiting in a neighborhood will be desirable news, but sensational and neighborhood scandals must be excluded. We desire to build up, not tear down. We want news of the social, moral and religious status of our people. We would rather that all scandals be smothered where the spark starts.  
 Sales of land, mineral rights, the developing of coal veins, the sale of timber, the making of roads, notices of extra large crop yields, marriages, births and notices of religious meetings held, or to be held, under reflection on other denominations of religious sects, without insult to the opposing party of the meetings of societies, without programmes; of all new enterprises of the locality, such as new localities, stock sales, prices, etc.; arrest of criminals, trial and result; miraculous events and monstrosities, murders, frauds and parties thereto; war news, success of, etc.; educational advancement; the establishing of schools, churches, hospitals, and other public utilities, unless accompanied by the cash.  
 Each item must be paraphrased, and as brief as possible, and must be sent. Each aspirant must provide his own postage and stationery.

"B" In proportion as the correspondence increases an interest in the paper, I will increase the value of all prizes, and if the localities, the gold prizes before they are awarded. As the prize and our missions above stipulated, I will give the correspondents sending the largest list of cash subscribers—above ten copies of THE HERALD. Here is a chance for some one to make big money, and for several to get good money and prizes.

SPENCER COOPER, Owner and Editor.
